Live Search Maps Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module helps you view all the listings under full view or windowed map To view all the available modules, click **Extension > Module Manager**.

To create a new module, click **New**. Select the **EXTENSION_NAME Maps module**. Provide the information as given in the following sections. Click **Save** to save the module.

Editing the Maps Module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

The screenshot displays the 'JomHoliday Ajax Maps' module edit screen. The interface is divided into two main sections: a left sidebar for module identification and a main area for configuration. The left sidebar includes tabs for 'Module', 'Menu Assignment', 'Advanced', 'Template', and 'Permissions'. The 'Module' tab is active, showing the module name 'JomHoliday Ajax Maps' and a 'Site' dropdown. The main configuration area is divided into two columns. The left column contains settings for 'Layout' (Map Wide), 'Display Limit' (100), 'Map Width' (100%), 'Map Height' (100vh), 'Top Margin' (155px), 'Display Category' (Yes), 'Display Keyword' (Yes), and 'Address Radius Search' (Yes). The right column contains settings for 'Title' (Hide), 'Position' (top), 'Status' (Published), 'Start Publishing' (calendar icon), 'Finish Publishing' (calendar icon), 'Access' (Public), 'Ordering' (1. JomHoliday Ajax Maps WIDE), and a 'Note' field.

| Module | Menu Assignment | Advanced | Template | Permissions |
|------------------------------|--|----------|----------|-------------|
| JomHoliday Ajax Maps | | | | |
| Site JomHoliday Ajax Maps | | | | |
| Layout | Map Wide | | | |
| Display Limit | 100 | | | |
| Map Width | 100% | | | |
| Map Height | 100vh | | | |
| Top Margin | 155px | | | |
| Display Category | <input checked="" type="radio"/> Yes <input type="radio"/> No | | | |
| Display Keyword | <input checked="" type="radio"/> Yes <input type="radio"/> No | | | |
| Address Radius Search | <input checked="" type="radio"/> Yes <input type="radio"/> No | | | |
| Title | <input type="checkbox"/> Hide | | | |
| Position | top | | | |
| Status | Published | | | |
| Start Publishing | <input type="text"/> | | | |
| Finish Publishing | <input type="text"/> | | | |
| Access | Public | | | |
| Ordering | 1. JomHoliday Ajax Maps WIDE | | | |
| Note | <input type="text"/> | | | |

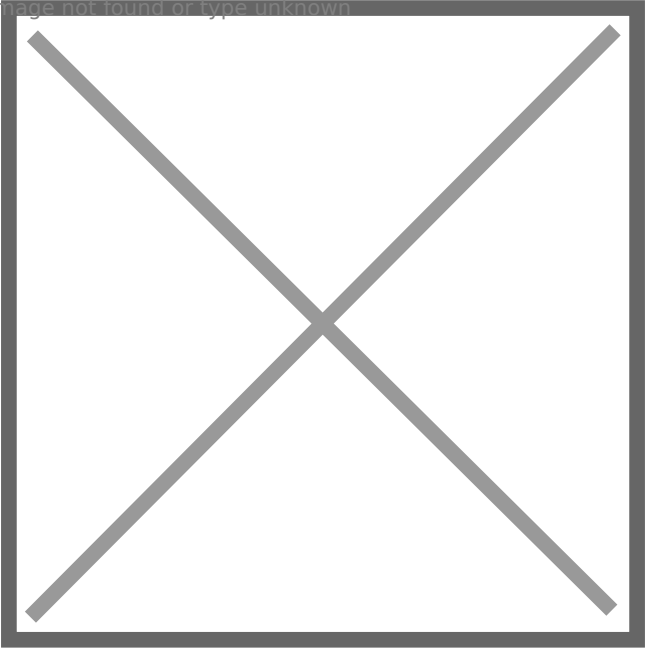

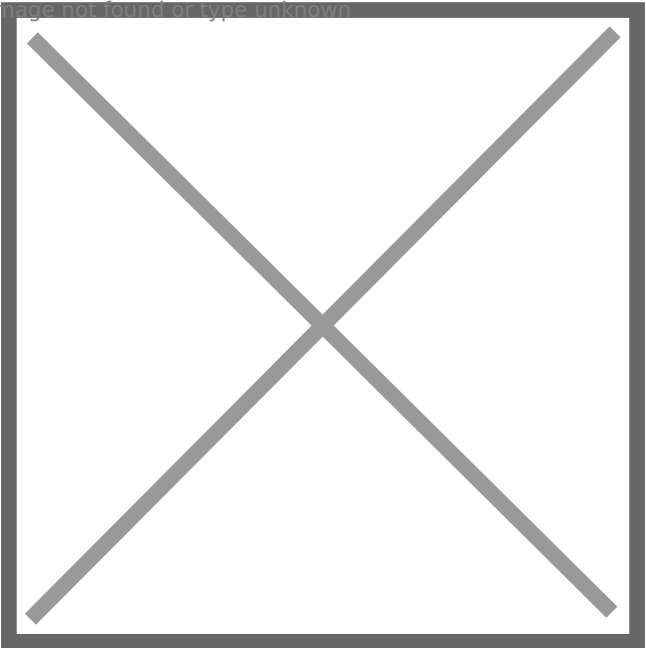

Screen 2: Module tab

Module tab

This tab controls the layout where the search panel is to be displayed on the screen.

Screen 3: Module tab

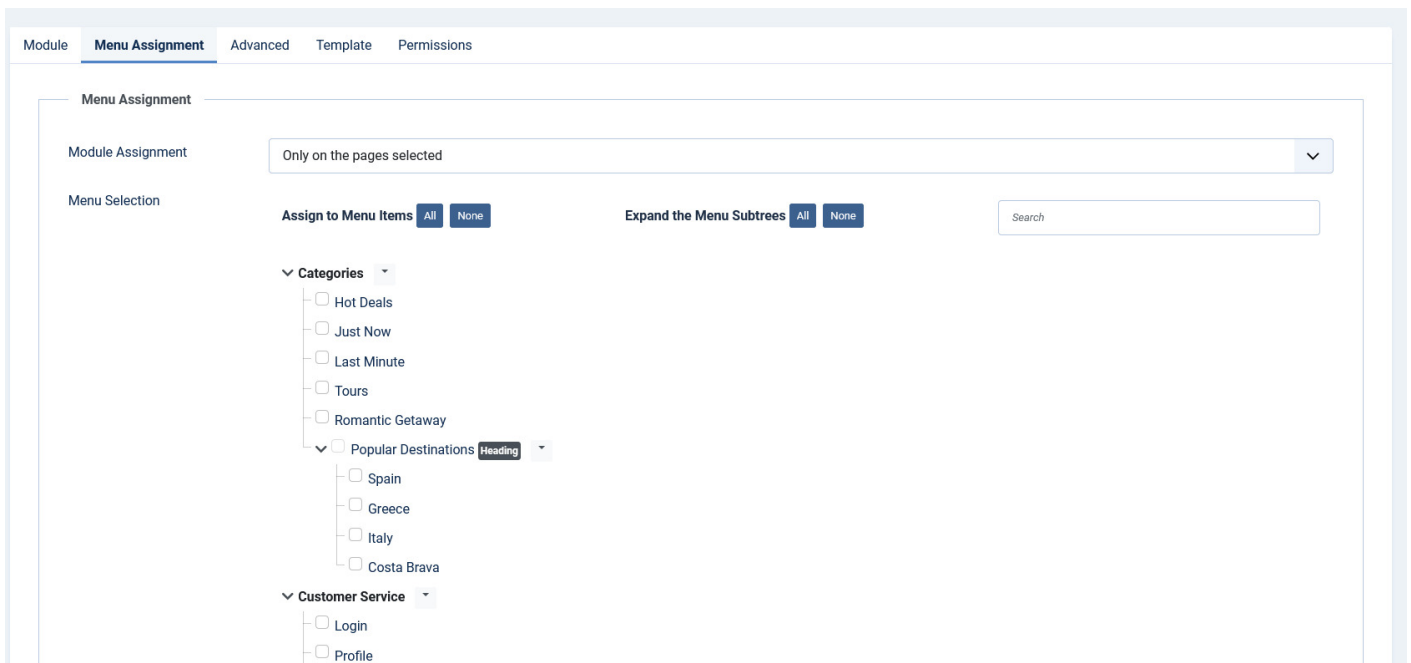

Provide the options as per the following table.

| | |
|----------------------|---|
| Layout | <p>Select the required layout in the Layout field. The available options are:</p> <p>Maps Wide – layout with the search module on the left side and big map area on the right side, as seen in the following image:</p> <p>Image not found or type unknown</p>  <p>Maps – layout showing items on a map as seen in the following image:</p> <p>Image not found or type unknown</p>  |
| Display limit | Limit number of items shown on the map |
| Map width | Set width of the map |
| Map height | Set height of the map |

| | |
|--------------------------|---|
| Top margin | Set top margin of the map |
| Display Category | Display category selection on the left of the wide map layout |
| Display Address | Display address selection on the left of the wide map layout |
| Display Keyword | Display keywords selection on the left of the wide map layout |
| Position | Select the position based on your Joomla Template. |
| Start Publishing | Provide a date when the search panel should be published. |
| Finish Publishing | Provide a date when the search panel should be unpublished. |
| Access | Provide access level for the panel. <ul style="list-style-type: none"> • Guest • Public • Registered • Special |
| Ordering | Provide the order in which the side panel should appear. If more than one module is positioned at the same location, you can set the order of appearance in this field. |
| Language | Select the language for which you want to display this panel. For each language, you must create a new JomDirectory Search module. |
| Note | Provide additional information. |

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected

Creating custom category markers

When any listing is displayed on the map, it is shown as a pin. This pin icon is as in the default template. To modify this pinned icon as per your category, marker image needs to be placed under module images directory:

```
modules/mod_EXTENSION-NAME_images/markers/...
```

The file name should be same as the category. The spaces need to be replaced with dashes " - " and the "marker" prefix. So, suppose category name is **Auto Parts**, then the file name for the marker should be **marker_auto-parts.png**.

Slideshow PRO Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module showcases the listings in a slideshow format. Users can see the image along with the title of the listing.

Slideshow PRO Module upon activation is seen as follows on the pages:

Screen 1: Slideshow Module on front page

Editing Slideshow Module

To edit the module, click on the module link or select the check box next to the module name, and then click **Edit**.

Screen 2: Module tab

Provide the options as per the following table.

| | |
|----------------------|---|
| Count | Number of listings for which images need to be shown in the slideshow |
| Number of characters | Number of characters from the description that will be shown in the slideshow. |
| Image Format | The format for the thumbnail listing image. 1:1 = Image will be unchanged. 4:3 = image will be resized to 4:3 format. 10:9 = Image will be resized to 10:9 format. |
| Featured | Enable to show only featured listings. |

| | |
|------------------------------------|--|
| Show Address | Enable to show the address of the listing. |
| Show Description | Enable to show the description up to the character limit set. |
| Category | <p>Select either of the following options.</p> <ul style="list-style-type: none"> • Current Browse (auto) – Automatically displayed based on the category. • Selected Below – Listings belonging to only these categories are shown. |
| Choose Category | If Selected Below is selected for the above field, select the required category. |
| Sort Options | <p>Select how the displayed listings should be sorted by.</p> <ul style="list-style-type: none"> • Latest • Most Viewed • Alphabetically • Updated • Most Rated DESC • Most Rated ASC |
| Use Listings IDs | Enable to make the next set of settings work. |
| IDs CSS Item Styling | Provide comma separated IDs in this field. Such as, 21, 22 and so on. |
| Use IDs for the CSS Classes | <p>If set to yes, to each Caption, CSS Class ID will be added e.g. .jd-slide-title21 where 21 is ID of the listing. Listing ID can be found under JomEvents Listing View in Table - Column ID. It works best with Use Listings ID's setting</p> <p>You can select individual listings and promote them with different captions.</p> <p>If set to No, the default CSS will be used for all captions.</p> |

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

The screenshot shows the 'Menu Assignment' tab within a larger interface. At the top, there are tabs for 'Module', 'Menu Assignment' (which is active), 'Advanced', 'Template', and 'Permissions'. Below the tabs, the 'Menu Assignment' section is divided into two main parts: 'Module Assignment' and 'Menu Selection'. In the 'Module Assignment' section, there is a dropdown menu currently set to 'Only on the pages selected'. The 'Menu Selection' section contains two groups of buttons: 'Assign to Menu Items' with 'All' and 'None' options, and 'Expand the Menu Subtrees' with 'All' and 'None' options. To the right of these buttons is a search input field labeled 'Search'. Below the buttons, there are two expandable sections: 'Categories' and 'Customer Service'. The 'Categories' section is expanded, showing a list of categories with checkboxes: 'Hot Deals', 'Just Now', 'Last Minute', 'Tours', 'Romantic Getaway', and 'Popular Destinations'. The 'Popular Destinations' category is further expanded, showing sub-items: 'Spain', 'Greece', 'Italy', and 'Costa Brava'. The 'Customer Service' section is also expanded, showing 'Login' and 'Profile' with checkboxes. A small 'Heading' label is visible next to the 'Popular Destinations' category.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected
