- [Slideshow PRO Module](#)

Live Search Maps Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module helps you view all the listings under full view or windowed map To view all the available modules, click **Extension > Module Manager**.

To create a new module, click **New**. Select the **EXTENSION_NAME Maps module**. Provide the information as given in the following sections. Click **Save** to save the module.

Editing the Maps Module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

The screenshot displays the 'JomHoliday Ajax Maps' module edit screen. The interface is organized into two main columns. The left column contains settings for the module's layout and display options, while the right column handles publishing and access details.

Module Configuration (Left Column):

- Module:** JomHoliday Ajax Maps
- Layout:** Map Wide (dropdown)
- Display Limit:** 100 (input field)
- Map Width:** 100% (input field)
- Map Height:** 100vh (input field)
- Top Margin:** 155px (input field)
- Display Category:** Yes (radio button selected)
- Display Keyword:** Yes (radio button selected)
- Address Radius Search:** Yes (radio button selected)

Publishing and Access (Right Column):

- Title:** Hide (checkbox)
- Position:** top (dropdown)
- Status:** Published (dropdown)
- Start Publishing:** (calendar icon)
- Finish Publishing:** (calendar icon)
- Access:** Public (dropdown)
- Ordering:** 1. JomHoliday Ajax Maps WIDE (dropdown)
- Note:** (text area)

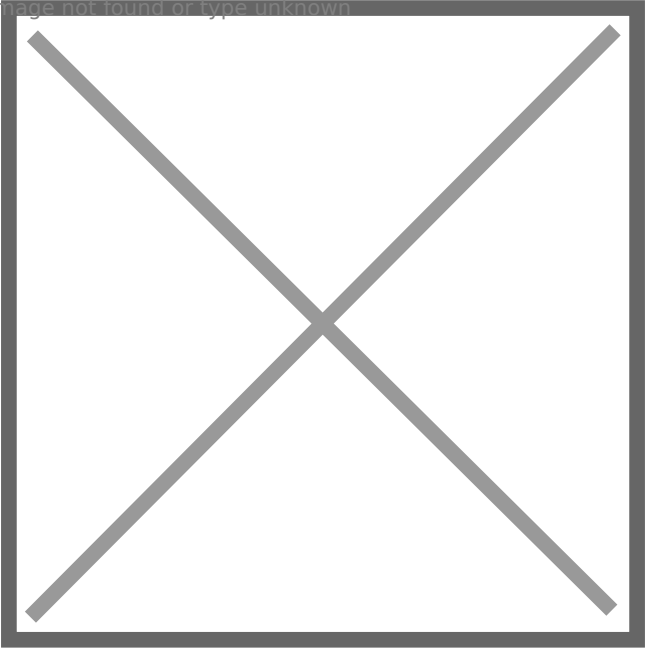

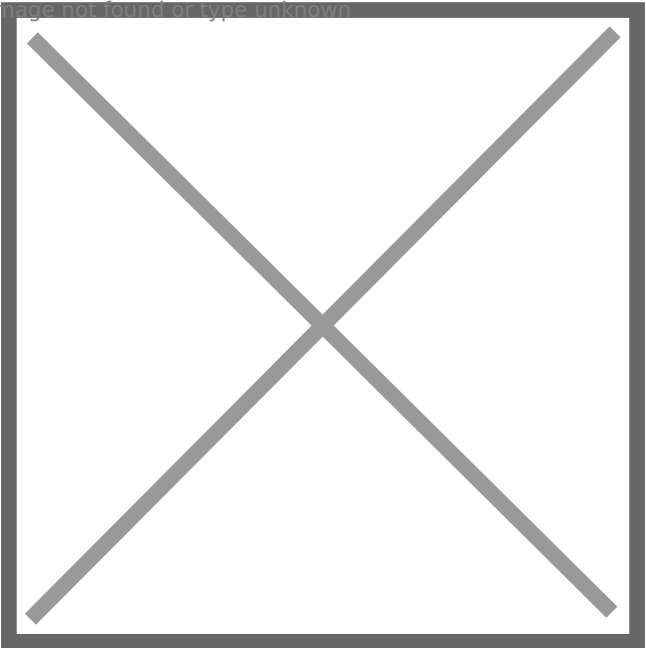

Screen 2: Module tab

Module tab

This tab controls the layout where the search panel is to be displayed on the screen.

Screen 3: Module tab

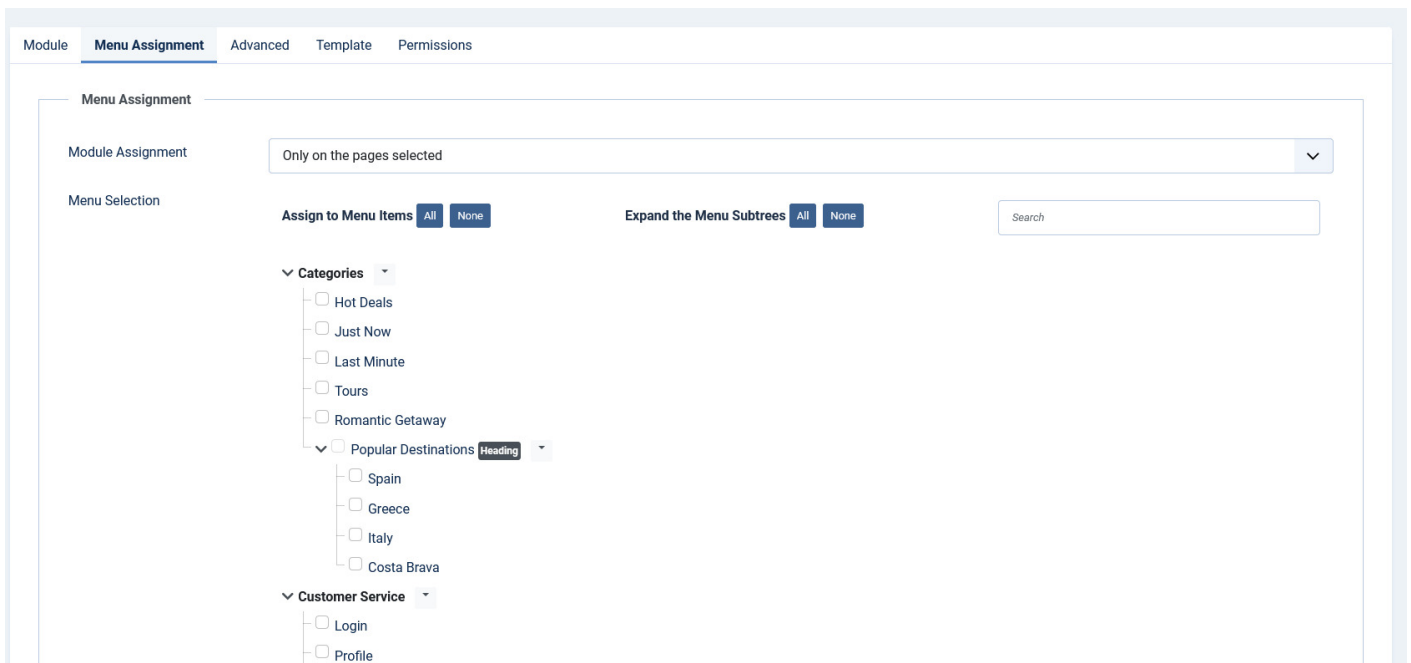

Provide the options as per the following table.

Layout	<p>Select the required layout in the Layout field. The available options are:</p> <p>Maps Wide – layout with the search module on the left side and big map area on the right side, as seen in the following image:</p> <p>Image not found or type unknown</p>  <p>Maps – layout showing items on a map as seen in the following image:</p> <p>Image not found or type unknown</p> 
Display limit	Limit number of items shown on the map
Map width	Set width of the map
Map height	Set height of the map

Top margin	Set top margin of the map
Display Category	Display category selection on the left of the wide map layout
Display Address	Display address selection on the left of the wide map layout
Display Keyword	Display keywords selection on the left of the wide map layout
Position	Select the position based on your Joomla Template.
Start Publishing	Provide a date when the search panel should be published.
Finish Publishing	Provide a date when the search panel should be unpublished.
Access	Provide access level for the panel. <ul style="list-style-type: none"> • Guest • Public • Registered • Special
Ordering	Provide the order in which the side panel should appear. If more than one module is positioned at the same location, you can set the order of appearance in this field.
Language	Select the language for which you want to display this panel. For each language, you must create a new JomDirectory Search module.
Note	Provide additional information.

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected

Creating custom category markers

When any listing is displayed on the map, it is shown as a pin. This pin icon is as in the default template. To modify this pinned icon as per your category, marker image needs to be placed under module images directory:

```
modules/mod_EXTENSION-NAME_images/markers/...
```

The file name should be same as the category. The spaces need to be replaced with dashes " - " and the "marker" prefix. So, suppose category name is **Auto Parts**, then the file name for the marker should be **marker_auto-parts.png**.

Slideshow PRO Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module showcases the listings in a slideshow format. Users can see the image along with the title of the listing.

Slideshow PRO Module upon activation is seen as follows on the pages:

Screen 1: Slideshow Module on front page

Editing Slideshow Module

To edit the module, click on the module link or select the check box next to the module name, and then click **Edit**.

The following image shows the module edit screen.

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

The screenshot shows the 'Menu Assignment' tab within a larger interface. At the top, there are tabs for 'Module', 'Menu Assignment' (which is active), 'Advanced', 'Template', and 'Permissions'. Below these, the 'Menu Assignment' section is divided into two main parts: 'Module Assignment' and 'Menu Selection'. In the 'Module Assignment' section, there is a dropdown menu currently set to 'Only on the pages selected'. The 'Menu Selection' section contains two groups of buttons: 'Assign to Menu Items' with 'All' and 'None' options, and 'Expand the Menu Subtrees' with 'All' and 'None' options. To the right of these buttons is a search input field labeled 'Search'. Below the buttons, there are two expandable sections. The first is 'Categories', which is expanded to show a list of items: 'Hot Deals', 'Just Now', 'Last Minute', 'Tours', 'Romantic Getaway', and 'Popular Destinations'. The 'Popular Destinations' item is selected and has a 'Heading' dropdown next to it. Under 'Popular Destinations', there is a sub-list: 'Spain', 'Greece', 'Italy', and 'Costa Brava'. The second expandable section is 'Customer Service', which is also expanded to show 'Login' and 'Profile' items. Each item in the lists has a checkbox next to it.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected
