

Listings

Overview

Listings are nothing but the product listings that you want to create in the directory. Each listing is attached to a category. They are created in the same manner as Joomla articles, but are not related to Joomla articles in definition.

Creating A New Listing

The following image shows the Listings screen.

The screenshot shows the Joomla! Listings screen. The left sidebar contains the Joomla! logo and a menu with options like Toggle Menu, Comdev, Comdev Directory, Dashboard, Categories, Address, Listings, Listing Custom fields, Listing Reviews, Listing Reviews Categories, Listing Reviews Recommendations, Products, Services, Membership Plans, Email Templates, Orders, Payments, Coupons, Users, Messages, and Banners. The main content area is titled 'Listings' and features a search bar, a 'Filter Options' dropdown, a 'Clear' button, and a '20' items per page selector. Below this is a table of listings with the following columns: ID, STATUS, TITLE, CATEGORY, PRODUCTS, PUBLISHED, USER, REVIEWS, and HITS. The table contains 9 listings, each with a checkbox, a status indicator (green checkmark, yellow star, blue checkmark), a thumbnail image, a title, an alias, a category, a product count, a published date, a user, a review count, and a hit count.

Screen 1: Listing screen

The following table explains the different options seen on the screen.

New	Creates a new Address entry. You must create separate entries for each level of depth that you need.
Edit	Provides the edit mode to make changes to the existing level or titles created.
Publish	Publishes the created address entry.
Unpublish	Removes the entry from the list of published address entries
Archive	Archives address entries that are not used anymore.
Trash	Deletes the address entry that is not required anymore.
Options	Naviagate to the options screen in JomDirectory.

Edit Listing

If you want to edit existing entries, you can either click the entry from the Listings screen or select the checkbox next to the entry, and then click Edit.

Edit Listing tab

This tab provides options to add title, description, select category, and other options for the Listing as seen in the following image

Understanding the Location area in Edit listing tab

Let us understand how to provide the address and Street/House No for providing the exact locations on the map. When you provide the address, street and House No. in the backend when creating listings, the location position automatically. If the House No. is not provided, additional

location fields needs to be used.

Mapping using longitudes and latitudes

If you provide the latitudes and longitudes, and the Maps Search setting is left blank, the location mapping is done based on these parameters as shown in the following image.

Screen 3: Map using longitudes and latitudes values

Mapping with Map Search values

If the Map Search field has a value provided to it, it takes precedence as shown in the following image. If the Map Search field value is given as “New York”, the location will map to this location.

Screen 4: Map using Map Search Field values

Custom Fields tab

This tab includes all the custom fields created for a particular category. If the custom field is not applied to a specific category, it can be seen for all categories when creating a listing. The following image shows the Custom Fields tab screen.

The screenshot displays the Joomla! JomDirectory interface for the 'Custom Fields' tab. The top navigation bar includes links for Home Dashboard, Content, Menus, Components, Users, System, and Help. The Joomla! logo and 'JomDirectory' are visible on the left, with version 4.1.5 and a 'JomDirectory Demo Website' link on the right. Below the navigation bar, there are buttons for 'Save', 'Save & Close', 'Save & New', 'Save as Copy', and 'Close'. The main content area is divided into two columns. The left column contains a 'Details' tab and a 'Custom Fields' tab. Under 'Custom Fields', there are sections for 'Number of Employees' (a text input with '10'), 'Parking' (checkboxes for Street, Garage, Underground), 'Pets Friendly' (radio buttons for Yes, No), 'Live Music' (radio buttons for Yes, No), 'Wireless Internet' (radio buttons for Yes, No), 'Opening Date' (a date picker), 'Accept Credit Cards' (radio buttons for Yes, No), and a 'Custom Tab' editor. The 'Custom Tab' editor shows a rich text editor with a menu bar (Edit, Insert, View, Format, Table, Tools) and a toolbar with icons for CMS Content, Bold, Italic, Underline, and a link icon. The text area contains placeholder text. The right column contains a 'Featured' section with 'No' and 'Yes' buttons, an 'Approved' section with 'No' and 'Yes' buttons, a 'Phone' section with a text input containing '+44186532555454', a 'Mobile' section with a text input, a 'Webpage' section with a text input containing 'http://fashion.co.uk', a 'Facebook' section with a text input, a 'Define email' section with 'Default' and 'Specific email' buttons, a 'Status' section with a dropdown menu set to 'Published', a 'Language' section with a dropdown menu set to 'All', an 'Access' section with a dropdown menu set to 'Public', a 'Created by' section with a text input containing 'Demo' and a user icon, a 'Date created' section with a date picker set to '2021-12-03 15:05:32', and a 'Publish Up' button.
