

Products

Overview

Each listing can have as many products as you need. Products can be found on the "Products" tab of each Listing item on the frontend of the website

Access Products section of JomDirectory

You can access Products section of JomDirectory by clicking on the Products item in the Sidebar as seen on the following screenshot

Screen 1: Products screen

The following table explains the different options seen on the screen.

New	Creates a new Product entry.
Edit	Provides the edit mode to make changes to the existing product.
Publish	Publishes the created product entry.
Unpublish	Removes the entry from the list of published product entries
Archive	Archives products entries that are not used anymore.

Trash	Deletes the product entry that is not required anymore.
Options	Naviagate to the options screen in JomDirectory.

Screen 2: Edit Product screen

The following table shows the options available:

Edit Listing area	Title	Title for the Product.
	Alias	URL alias for “SEF/SEO” URL.
	Category	Category where the product will be published.
	Tags	Provide the tags for the listing. Tags are integrated and maintained with Joomla Tags Component.
	SKU	Short for stock-keeping unit, SKU is a unique numerical identifying number that refers to a specific stock item in a retailer's inventory or product catalog. The SKU is often used to identify the product, product size or type, and the manufacturer.

	Status	Select the required status. <ul style="list-style-type: none"> • Published • Unpublished • Trashed • Archived
	Created by	Select the user who created the listing.
	Access	Provide the access level for the listing. <ul style="list-style-type: none"> • Guest • Public • SuperUsers • Registered • Special
	Date created	Select the date when the listing was created. You can select a future date for publishing the listing as well.
	Publish Up	Select a date when you want to publish the listing. Here too, you can schedule to post the listing at a future date.
	Publish down	Select a date when the listing should stop being published.
	Modified Date	Select a date when the listing was modified.
	ID	This is an auto-generated field.

Custom Fields tab

This tab includes all the custom fields created for a particular category. If the custom field is not applied to a specific category, it can be seen for all categories when creating a listing. The following image shows the Custom Fields tab screen.

Screen 3: Custom Fields tab

For more information about creating custom fields, see [Custom Fields](#).

Images tab

This tab includes information about images and videos attached to the listing. Before you can add images to the product, you must save your product at least once. This ensures that all the other data you have filled for the product does not disappear after the images are added.

The Images tab can be seen as shown in the following image:
