

Products

Overview

Each listing can have as many products as you need. Products can be found on the "Products" tab of each Listing item on the frontend of the website

Access Products section of JomDirectory

You can access Products section of JomDirectory by clicking on the Products item in the Sidebar as seen on the following screenshot

The screenshot shows the Joomla! JomDirectory admin interface. The sidebar on the left contains a menu with 'Products' highlighted by a red arrow. The main content area displays a table of products with the following columns: ID, STATUS, TITLE, SKU, PRICE, CATEGORY, USER, REVIEWS, and ATTRIBUTES. The table contains four product entries:

ID	STATUS	TITLE	SKU	PRICE	CATEGORY	USER	REVIEWS	ATTRIBUTES
4	✓ ○ ✓	Woman white floral dress Journelle	4	20 EUR (VAT 0%)	Clothing & Apparel	Demo	1	
3	✓ ○ ✓	Red Moccasins Fashion Outlet	3	60 EUR (VAT 0%)	Retail & Shopping	Demo	0	
2	✓ ○ ✓	Sneakers Journelle	2	50 EUR (VAT 0%)	Retail & Shopping	Demo	0	
1	✓ ⭐ ✓	Small bag, iconic model Journelle	122453	100 EUR (VAT 0%)	Retail & Shopping	Demo	0	

Screen 1: Products screen

The following table explains the different options seen on the screen.

New	Creates a new Product entry.
Edit	Provides the edit mode to make changes to the existing product.
Publish	Publishes the created product entry.
Unpublish	Removes the entry from the list of published product entries
Archive	Archives products entries that are not used anymore.

Trash	Deletes the product entry that is not required anymore.
Options	Navigate to the options screen in JomDirectory.

Creating A New Product

The following image shows the Products screen.

The screenshot shows the Joomla! JomDirectory interface for creating a new product listing. The main form is titled 'New Listing' and includes several sections:

- Title ***: A text input field containing 'New Product'.
- Alias**: A text input field with the value 'Auto-generate from title'.
- Brand ID**: A dropdown menu showing 'A & M Auto Mobile Services LTD'.
- Category ***: A dropdown menu showing 'Select'.
- SKU**: An empty text input field.
- Quantity**: An empty text input field.
- Tags**: A text input field with the placeholder 'Type or select some tags'.
- Summary / Full Description [use read more button]**: A rich text editor with a toolbar and a large text area.
- Toggle Editor**: A button to toggle between edit and view modes.

On the right side of the form, there are several sections for additional product details:

- Price [EUR]**: An empty text input field.
- Previous Price [EUR]**: An empty text input field.
- Product VAT [0 %]**: A text input field containing '0'.
- Featured**: A section with 'No' and 'Yes' radio buttons, where 'No' is selected.
- Approved**: A section with 'No' and 'Yes' radio buttons, where 'No' is selected.
- Status**: A dropdown menu showing 'Published'.
- Language**: A dropdown menu showing 'All'.
- Access**: A dropdown menu showing 'Public'.
- Created by**: A dropdown menu showing 'Select a User'.
- Date created**: A date picker field.
- Publish Up**: A date picker field.
- Publish down**: A date picker field.
- Modified Date**: A date picker field.

Edit Product

If you want to edit existing entries, you can either click the entry from the Product screen or select the checkbox next to the entry, and then click Edit.

This tab provides options to add title, description, select category, and other options for the Product as seen in the following image:

Screen 2: Edit Product screen

The following table shows the options available:

Edit Listing area	Title	Title for the Product.
	Alias	URL alias for “SEF/SEO” URL.
	Category	Category where the product will be published.
	Tags	Provide the tags for the listing. Tags are integrated and maintained with Joomla Tags Component.
	SKU	Short for stock-keeping unit, SKU is a unique numerical identifying number that refers to a specific stock item in a retailer's inventory or product catalog. The SKU is often used to identify the product, product size or type, and the manufacturer.

	Quantity	Quantity of that specific product in the warehouse
	Brand ID	ID of the brand to which this product belongs
	Summary / Full Description	<p>Provide a description for the product. You can create a short description as well a long description.</p>  <p>Icon</p> <p>In the above image, a tag appears when you click Read More. Any content above this tag is the short description while the entire content is the long description. Also, note that if there is no content after the Read More tag, the product description will be blank when users view the listing. Ensure that you have content after the Read More tag.</p>
Joomla Articles area	ArticleButton	Click to select a relevant article. If an article is provided, it can be seen under the Details tab in the listing.
Sidebar	Price	Price of that specific Product
	Previous Price	Previous price of the Product. If exists, a previous price will be visible on the Product tab on the Frontend, showing the increase or decrease of the price
	Product VAT	VAT of the Product can be entered here
	Featured	Enable to make the listing appear as featured listing.
	Approved	Enable to approve the listing. Listing will not be published.
	Language	Select the language for which the listing needs to appear for. For multiple languages, you must create separate entries for each language.

	Status	Select the required status. <ul style="list-style-type: none"> • Published • Unpublished • Trashed • Archived
	Created by	Select the user who created the listing.
	Access	Provide the access level for the listing. <ul style="list-style-type: none"> • Guest • Public • SuperUsers • Registered • Special
	Date created	Select the date when the listing was created. You can select a future date for publishing the listing as well.
	Publish Up	Select a date when you want to publish the listing. Here too, you can schedule to post the listing at a future date.
	Publish down	Select a date when the listing should stop being published.
	Modified Date	Select a date when the listing was modified.
	ID	This is an auto-generated field.

Custom Fields tab

This tab includes all the custom fields created for a particular category. If the custom field is not applied to a specific category, it can be seen for all categories when creating a listing. The following image shows the Custom Fields tab screen.

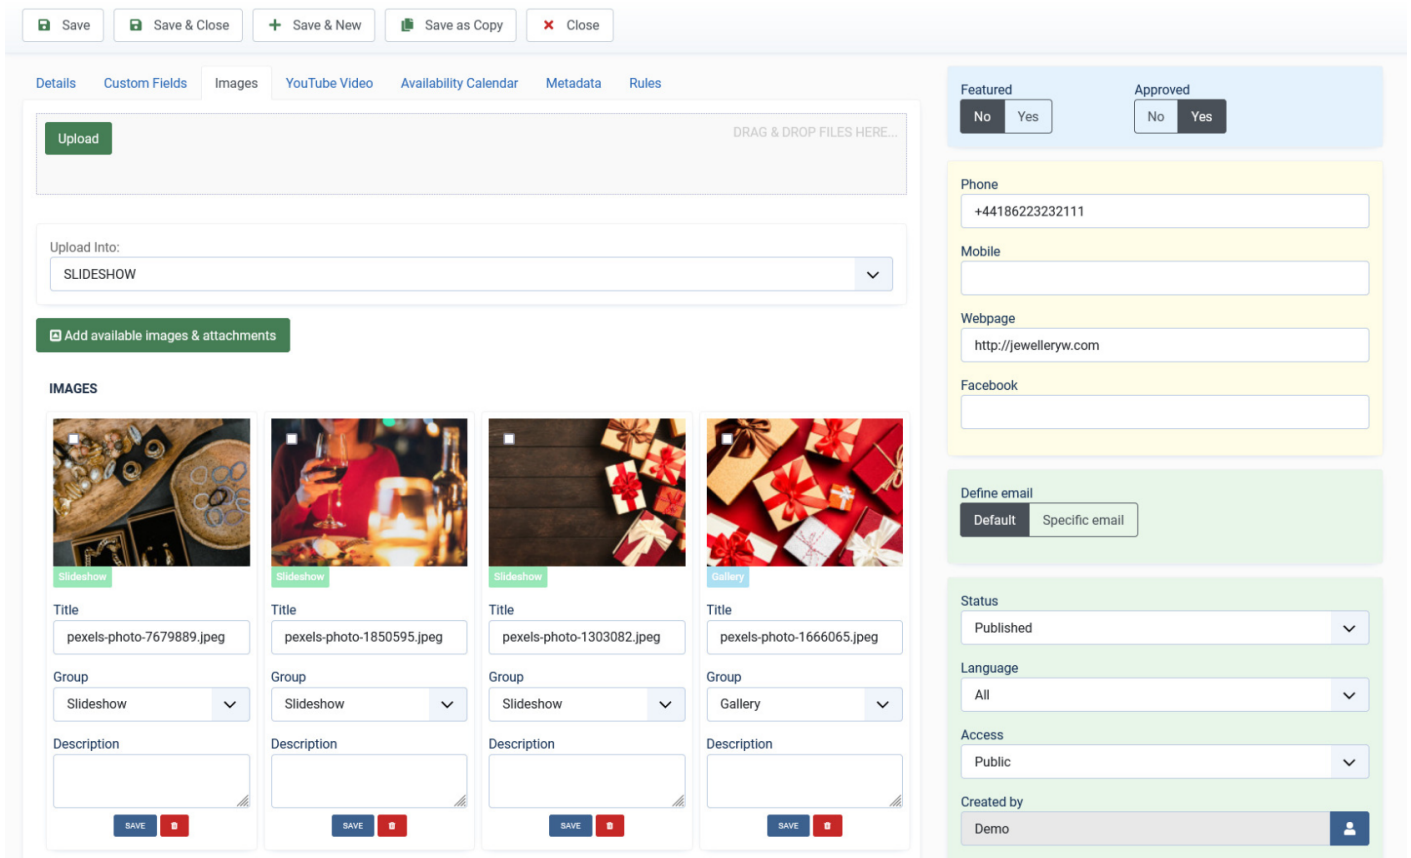

Screen 3: Custom Fields tab

For more information about creating custom fields, see [Custom Fields](#).

Images tab

This tab includes information about images and videos attached to the listing. Before you can add images to the product, you must save your product at least once. This ensures that all the other data you have filled for the product does not disappear after the images are added.

The Images tab can be seen as shown in the following image:

Screen 4: Images tab

To set the Order of the images (which one displayed first) drag and drop images to switch positions.

The first image in the gallery is used as the image thumbnail for the product.
