Overview

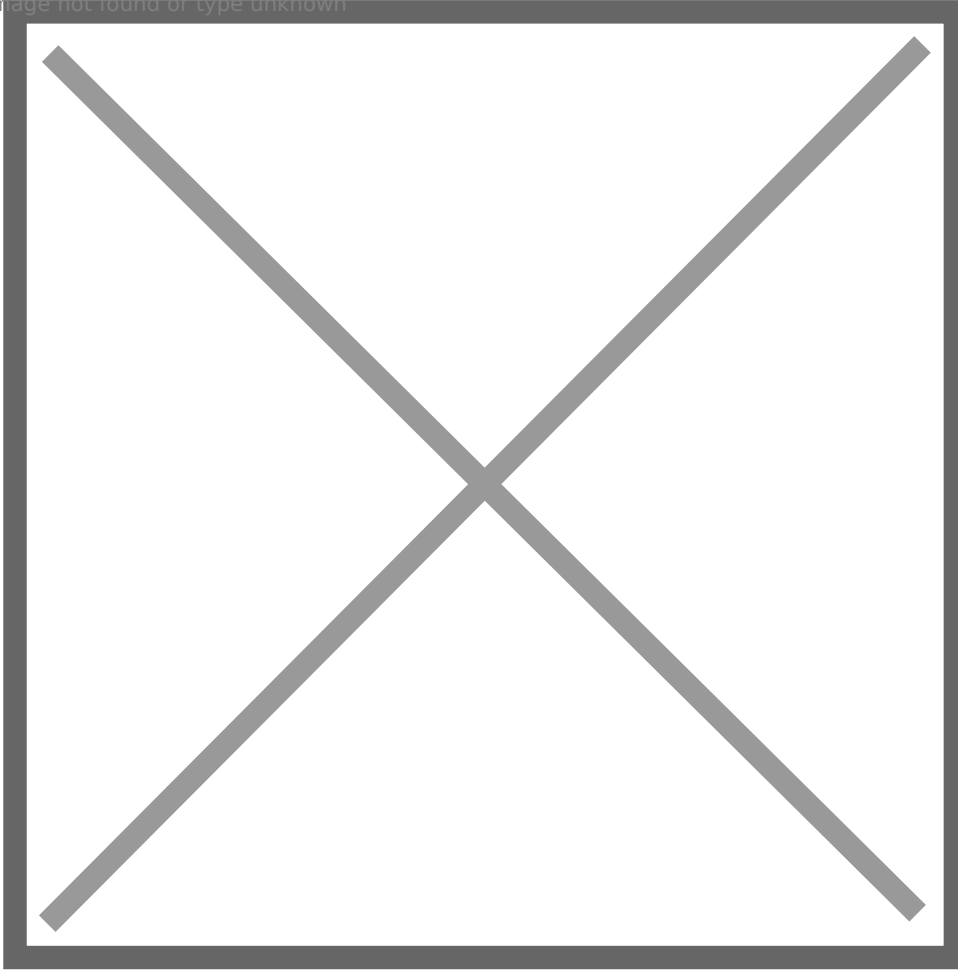

JomEstate has a built in mechanism to create/control Real Estate Companies and Agents. Each Company can have unlimited Agents, however an Agent can join only one Company. The main difference between Agents and Company is that a Company can control Agents listings and Agents itself by adding or deleting them.

The screenshot displays the Joomla! JomEstate administration interface. The top navigation bar includes links for Home Dashboard, Content, Menus, Components, Users, System, and Help. The left sidebar contains a menu with items like Dashboard, Categories, Address, Properties, Companies (highlighted with a red arrow), Agents, Users, Membership Plans, Email Templates, Payments, Messages, Banners, and Comdev. The main content area shows the 'JomEstate' header with version 4.2.6, a notification for 1 Post Installation Message, and a User Menu. Below the header, there are buttons for 'New' and 'Actions', and an 'Options' button. A search bar is also present. The main table lists two companies:

	NAME	USER	MEMBERSHIP PLAN	EMAIL	PHONE	WEBSITE	ID
<input type="checkbox"/>	Realty One Alias: realty-one	Super User	Basic	support1@comdev.eu	44 (0) 5555 8888	www.realtyone1.co.uk	2
<input type="checkbox"/>	Century21 Alias: century21	Century21	Business	demo_company@comdev.eu	44 (0) 12341234	www.cenrury21a.co.uk	1

Company Agents

Each Company or Agent needs to have an actual Joomla user-assigned to it:

- This user needs to be unique for each Company or Agent
- When adding an Agent from the Front Admin by the Company, Joomla user account needs to be created for that Agent
- Agent does **NOT** have any membership. The Agent inherits the membership details of the company he belongs to.

There are two user types in JomEstate:

- Public User who can add listings.
- Companies that have Agents.
