

# Latest Items Module

## Overview

This module helps you create the panel where latest listings are displayed. You can decide where to position the latest panel on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension > Module Manager**. The modules available are listed as seen in the following image.

## Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

The screenshot shows a web application interface with a top navigation bar containing tabs: Module, Menu Assignment (active), Advanced, Template, and Permissions. Below the navigation bar, the 'Menu Assignment' section is displayed. It includes a 'Module Assignment' dropdown menu currently set to 'Only on the pages selected'. Below this, the 'Menu Selection' section contains two buttons: 'Assign to Menu Items' (with 'All' and 'None' sub-buttons) and 'Expand the Menu Subtrees' (with 'All' and 'None' sub-buttons). To the right of these buttons is a search input field labeled 'Search'. Below the search field, there are two expandable sections: 'Categories' and 'Customer Service'. The 'Categories' section is expanded, showing a list of categories with checkboxes: Building and Constructions, Automotive and Transport, Programming and IT, Marketing and Advertising, Graphics and Multimedia, Home and Garden, Education and Research, Health and Beauty, and Food & Production. The 'Customer Service' section is also expanded, showing a list of items with checkboxes: Contact US (with a small icon) and another item partially visible.

## Screen 9: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected
