|                              |  |
|------------------------------|--|
| <b>Default Image Library</b> | Select the default image library for the listings component between "GD" and "iMagick".<br>For more information see:<br><a href="http://en.wikipedia.org/wiki/GD_Graphics_Library">http://en.wikipedia.org/wiki/GD_Graphics_Library</a><br><a href="http://en.wikipedia.org/wiki/Imagick">http://en.wikipedia.org/wiki/Imagick</a> |
| <b>Max Image Size</b>        | Provide the maximum image size.  |
| <b>Max Attachment Size</b>   | The component wide settings for maximum Attachment size in kilo-byte. (1024 KB = 1 MB)   |
| <b>Video Width</b>           | Embedded Video width in pixels.<br>(size of the grey-box video player)<br>Default Youtube.com size is either 480×385 for a 4:3 video, or 640×385 for a 16:9 video.   |
| <b>Video Height</b>          | Embedded Video height in pixels.<br>(size of the grey-box video player)<br>Default Youtube.com size is either 480×385 for a 4:3 video, or 640×385 for a 16:9 video.  |

|                                  |   |
|----------------------------------|---|
| <b>Allowed Files Extensions</b>  | Comma separated list of allowed attachment file-extensions.   |
| <b>Slideshow Width</b>           | Image width in pixels for the slideshow display area width.   |
| <b>Slideshow Format</b>          | The format for the main listing image.<br>1:1 = Image will be unchanged.<br>4:3 = image will be resized to 4:3 format.<br>10:9 = Image will be resized to 10:9 format.  |
| <b>Items Logo Width</b>          | Image width in pixels for Items Logo on the listing page.   |
| <b>Item Logo Image Width</b>     | Image width in pixels for Item Logo on the listing page.  |
| <b>Main Gallery Image Width</b>  | Image width in pixels for main gallery image. Ensure that the width value given here is as wide as or more than the slideshow width (generally 800-1200 pixels). If this is not done, the slideshow images will be blurred. |
| <b>Main Gallery Image Height</b> | Image height in pixels for main gallery image.  |
| <b>Main Gallery Image Format</b> | The format for the main gallery image.<br>1:1 = Image will be unchanged.<br>4:3 = image will be resized to 4:3 format.<br>10:9 = Image will be resized to 10:9 format.  |

After the images width or format are changed in the Media tab, ensure that you **clear the cache** for JomEvents extension. Click System > Clear Cache -> check com\_jomcomdev to clear the Joomla cache for our extension.

If possible, image format should be constant for both component and modules. Otherwise, cache issues may appear.

## Currency & Price tab

This tab provides options to control display of currency formats for listings.

Currency & Price
