

Events Listings

Overview

Properties are nothing but the product listings that you want to create in the JomEvents. Each listing is attached to a category. They are created in the same manner as Joomla articles, but are not related to Joomla articles in definition.

Creating A New Listing

The following image shows the Listings screen.

The screenshot displays the Joomla! administration interface for managing Venues. The left sidebar shows the Joomla! logo and a menu with options like Dashboard, Categories, Address, Events, Venues, Venues Categories, Users, Membership Plans, Email Templates, Payments, Messages, and Banners. The main content area is titled 'Venues' and includes a search bar, filter options, and a table of venue listings. The table has columns for ID, VENUES, CATEGORY, PUBLISHED, APPROVED, and LANGUAGE. Each row represents a venue with its details and status.

Screen 1: Properties screen

The following table explains the different options seen on the screen.

New	Creates a new Address entry. You must create separate entries for each level of depth that you need.
Edit	Provides the edit mode to make changes to the existing level or titles created.
Publish	Publishes the created address entry.
Unpublish	Removes the entry from the list of published address entries
Archive	Archives address entries that are not used anymore.
Trash	Deletes the address entry that is not required anymore.

Edit Listing

If you want to edit existing entries, you can either click the entry from the Listings screen or select the checkbox next to the entry, and then click Edit.

This tab provides options to add title, description, select category, and other options for the Listing as seen in the following image:
