

Latest Items Module

Overview

This module helps you create the panel where latest listings are displayed. You can decide where to position the Items module on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension > Module Manager**. The modules available are listed as seen in the following image.

Editing the JomEvents Items module

To edit the module, click on the module link or select the check box next to the module name, and then click **Edit**.

The following image shows the module edit screen.

Module tab

This tab controls the layout where the Items module panel is to be displayed on the screen.

The screenshot shows the 'Module' tab of the 'JomEvents Items' module configuration. At the top, there are buttons for 'Save', 'Save & Close', 'Close', 'Toggle Inline Help', and 'Help'. Below these is a 'Title' field with the value 'Upcoming Events'. The main configuration area is divided into two columns. The left column contains settings for 'Layout' (Default), 'Sort Options' (Upcoming+Current), 'Count' (6), 'Columns Number' (1, 2, 3, 4), 'Number of characters' (300), 'Image Width' (250), 'Image Format' (4/3), and 'Featured' (Yes/No). The right column contains settings for 'Title' (Hide), 'Position' (bottom-a), 'Status' (Published), 'Start Publishing' (calendar icon), 'Finish Publishing' (calendar icon), 'Access' (Public), and 'Ordering'.
