

# Search Module

## JomHoliday Search module

This module helps you create the search panel with fields that are searchable. All the fields that are defined as searchable during creation can be seen on this panel. You can decide where to position the search panel on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension > Module Manager > JomHoliday Search**

To create a new module, click **New**. Select the JomHoliday Search module. Provide the information as given in the following sections. Click **Save** to save the module.

## Editing the JomHoliday Search module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

## Screen 2: Search Module

### Module tab

This tab controls the layout where the search panel is to be displayed on the screen.

Layout

Select the required layout in the Layout field. The available options are:

- Horizontal – Horizontal Keyword field, category and address search field as seen in the following image:

- Side Search – Vertical Side panel to filter search results as seen in the following image:

Custom fields that have the Field can be Searched field enabled are seen in this panel. For more information, see

[Custom Fields](#) in the Administrative Guide.

- Modern Search – Single keyword search field as seen in the following image:

<b>Show Address</b>	Hide or Show the address field in the frontend
<b>Show category</b>	Hide or Show category selection in the frontend
<b>Custom Fields</b>	Select if search should process custom fields
<b>Default category</b>	Select a default category that will be preselected in the frontend
<b>Show Title</b>	Show or hide the title for the search panel.
<b>Position</b>	Select the position based on your Joomla Template.
<b>Start Publishing</b>	Provide a date when the search panel should be published.
<b>Finish Publishing</b>	Provide a date when the search panel should be unpublished.
<b>Access</b>	Provide access level for the panel. <ul style="list-style-type: none"> <li>• Guest</li> <li>• Public</li> <li>• Registered</li> <li>• Special</li> </ul>
<b>Ordering</b>	Provide the order in which the side panel should appear. If more than one module is positioned at the same location, you can set the order of appearance in this field.
<b>Language</b>	Select the language for which you want to display this panel. For each language, you must create a new JomHoliday Search module.
<b>Note</b>	Provide additional information.

## Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

Image not found or type unknown

#### **Screen 4: Menu Assignment tab**

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected

For the last two options, the screen is as shown in the following image:
