Latest Items Module

Overview

Modules are extensions that assist in creating blocks of information on your site. They aggregate information from components and can be placed in predefined positions on the page based on your Joomla template.

JomOffers Latest module

This module helps you create the panel where latest listings are displayed. You can decide where to position the latest panel on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension > Module Manager**. The modules available are listed as seen in the following image.

Editing the JomOffers Latest module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

Module tab

This tab controls the layout where the latest listings panel is to be displayed on the screen.

Live Search Maps Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module helps you view all the listings under full view or windowed map To view all the available modules, click **Extension > Module Manager**.

To create a new module, click **New**. Select the **EXTENSION_NAME Maps module**. Provide the information as given in the following sections. Click **Save** to save the module.

Editing the Maps Module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

The screenshot displays the 'Module Manager' interface for editing the 'JomHoliday Ajax Maps' module. The interface is divided into two main sections: a left sidebar for module identification and a main content area for configuration.

Module Identification:

- Module:** JomHoliday Ajax Maps
- Site:** JomHoliday Ajax Maps

Configuration Options:

- Layout:** Map Wide (dropdown)
- Display Limit:** 100 (text input)
- Map Width:** 100% (text input)
- Map Height:** 100vh (text input)
- Top Margin:** 155px (text input)
- Display Category:** Yes (radio button selected)
- Display Keyword:** Yes (radio button selected)
- Address Radius Search:** Yes (radio button selected)

Publishing and Access Settings:

- Title:** Hide (checkbox)
- Position:** top (dropdown)
- Status:** Published (dropdown)
- Start Publishing:** (calendar icon)
- Finish Publishing:** (calendar icon)
- Access:** Public (dropdown)
- Ordering:** 1. JomHoliday Ajax Maps WIDE (dropdown)
- Note:** (text area)

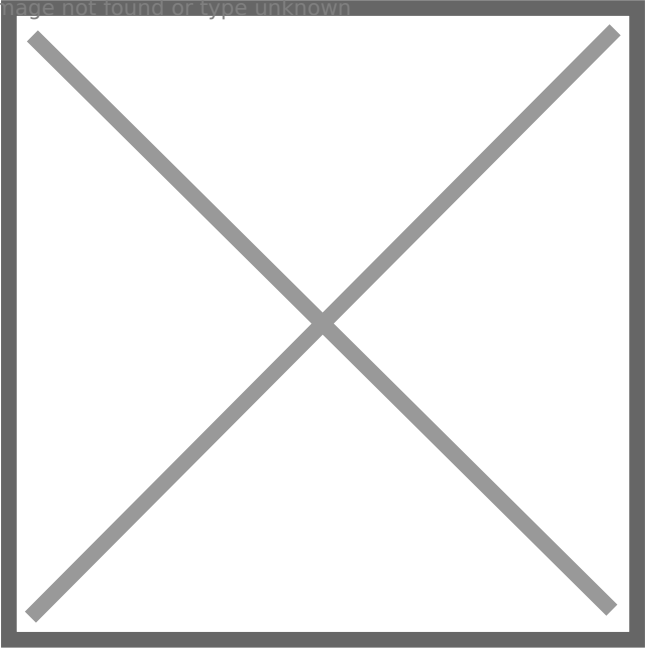

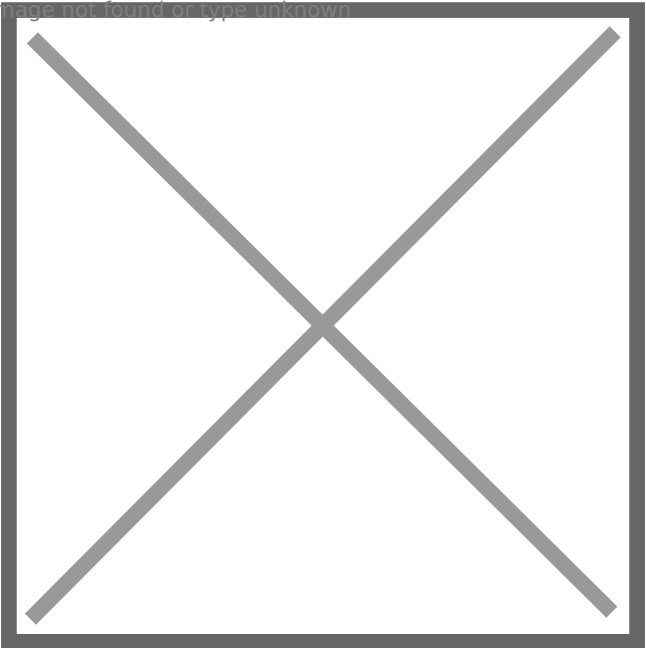

Screen 2: Module tab

Module tab

This tab controls the layout where the search panel is to be displayed on the screen.

Screen 3: Module tab

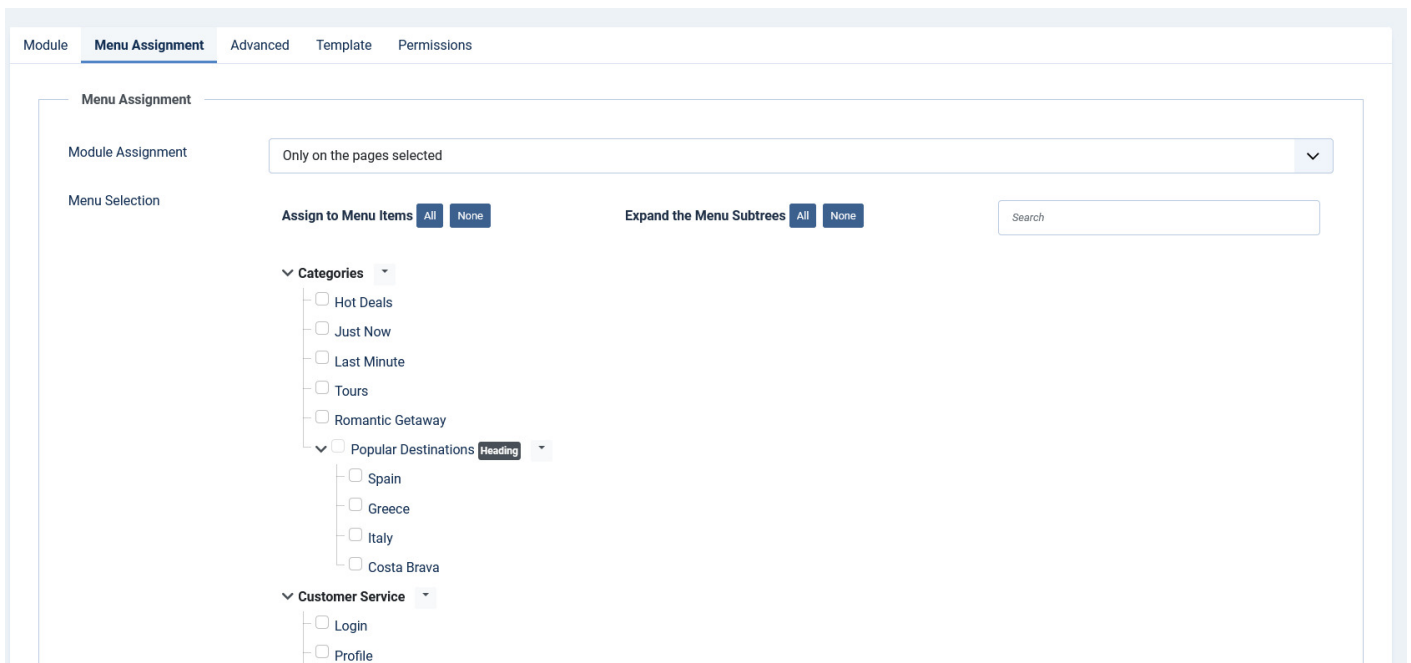

Provide the options as per the following table.

Layout	<p>Select the required layout in the Layout field. The available options are:</p> <p>Maps Wide – layout with the search module on the left side and big map area on the right side, as seen in the following image:</p> <p>Image not found or type unknown</p>  <p>Maps – layout showing items on a map as seen in the following image:</p> <p>Image not found or type unknown</p> 
Display limit	Limit number of items shown on the map
Map width	Set width of the map
Map height	Set height of the map

Top margin	Set top margin of the map
Display Category	Display category selection on the left of the wide map layout
Display Address	Display address selection on the left of the wide map layout
Display Keyword	Display keywords selection on the left of the wide map layout
Position	Select the position based on your Joomla Template.
Start Publishing	Provide a date when the search panel should be published.
Finish Publishing	Provide a date when the search panel should be unpublished.
Access	Provide access level for the panel. <ul style="list-style-type: none"> • Guest • Public • Registered • Special
Ordering	Provide the order in which the side panel should appear. If more than one module is positioned at the same location, you can set the order of appearance in this field.
Language	Select the language for which you want to display this panel. For each language, you must create a new JomDirectory Search module.
Note	Provide additional information.

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected

Creating custom category markers

When any listing is displayed on the map, it is shown as a pin. This pin icon is as in the default template. To modify this pinned icon as per your category, marker image needs to be placed under module images directory:

```
modules/mod_EXTENSION-NAME_images/markers/...
```

The file name should be same as the category. The spaces need to be replaced with dashes " - " and the "marker" prefix. So, suppose category name is **Auto Parts**, then the file name for the marker should be **marker_auto-parts.png**.

Slideshow PRO Module

Overview

This is an extra paid module available for Business Package, can be also purchased separately.

This module showcases the listings in a slideshow format. Users can see the image along with the title of the listing.

Slideshow PRO Module upon activation is seen as follows on the pages:

Screen 1: Slideshow Module on front page

Editing Slideshow Module

To edit the module, click on the module link or select the check box next to the module name, and then click **Edit**.

Menu Assignment tab

This tab controls where the module should be displayed. You can decide if it should be displayed on all pages for the site or just selective pages.

The screenshot shows the 'Menu Assignment' tab in a web application. The interface includes a top navigation bar with tabs: 'Module', 'Menu Assignment' (active), 'Advanced', 'Template', and 'Permissions'. Below the navigation bar, the 'Menu Assignment' section is displayed. It features a 'Module Assignment' dropdown menu set to 'Only on the pages selected'. Under the 'Menu Selection' section, there are two buttons: 'Assign to Menu Items' (with 'All' and 'None' options) and 'Expand the Menu Subtrees' (with 'All' and 'None' options). A search bar is also present. The main content area shows a tree structure of menu items. The 'Categories' section is expanded, showing a list of categories with checkboxes: 'Hot Deals', 'Just Now', 'Last Minute', 'Tours', 'Romantic Getaway', and 'Popular Destinations' (which is selected and has a 'Heading' dropdown). Under 'Popular Destinations', there are sub-items: 'Spain', 'Greece', 'Italy', and 'Costa Brava'. The 'Customer Service' section is also expanded, showing 'Login' and 'Profile' items.

Screen 4: Menu Assignment tab

Select the required menu for module assignment. The available options are:

- On all pages
- No pages
- Only on the pages selected
- On all pages except those selected
