

Latest Items Module

Overview

Modules are extensions that assist in creating blocks of information on your site. They aggregate information from components and can be placed in predefined positions on the page based on your Joomla template.

JomOffers Latest module

This module helps you create the panel where latest listings are displayed. You can decide where to position the latest panel on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension > Module Manager**. The modules available are listed as seen in the following image.

Editing the JomOffers Latest module

To edit the module, click on the module link or select the checkbox next to the module name, and then click **Edit**.

The following image shows the module edit screen.

Module tab

This tab controls the layout where the latest listings panel is to be displayed on the screen.
