Search Module

JomOffers Search module

This module helps you create the search panel with fields that are searchable. All the fields that are defined as searchable during creation can be seen on this panel. You can decide where to position the search panel on the page and also control on which pages the panel should appear. To view all the available modules, click **Extension** > **Module Manager**.

To create a new module, click **New**. Select the JomOffers Search module. Provide the information as given in the following sections. Click **Save** to save the module.

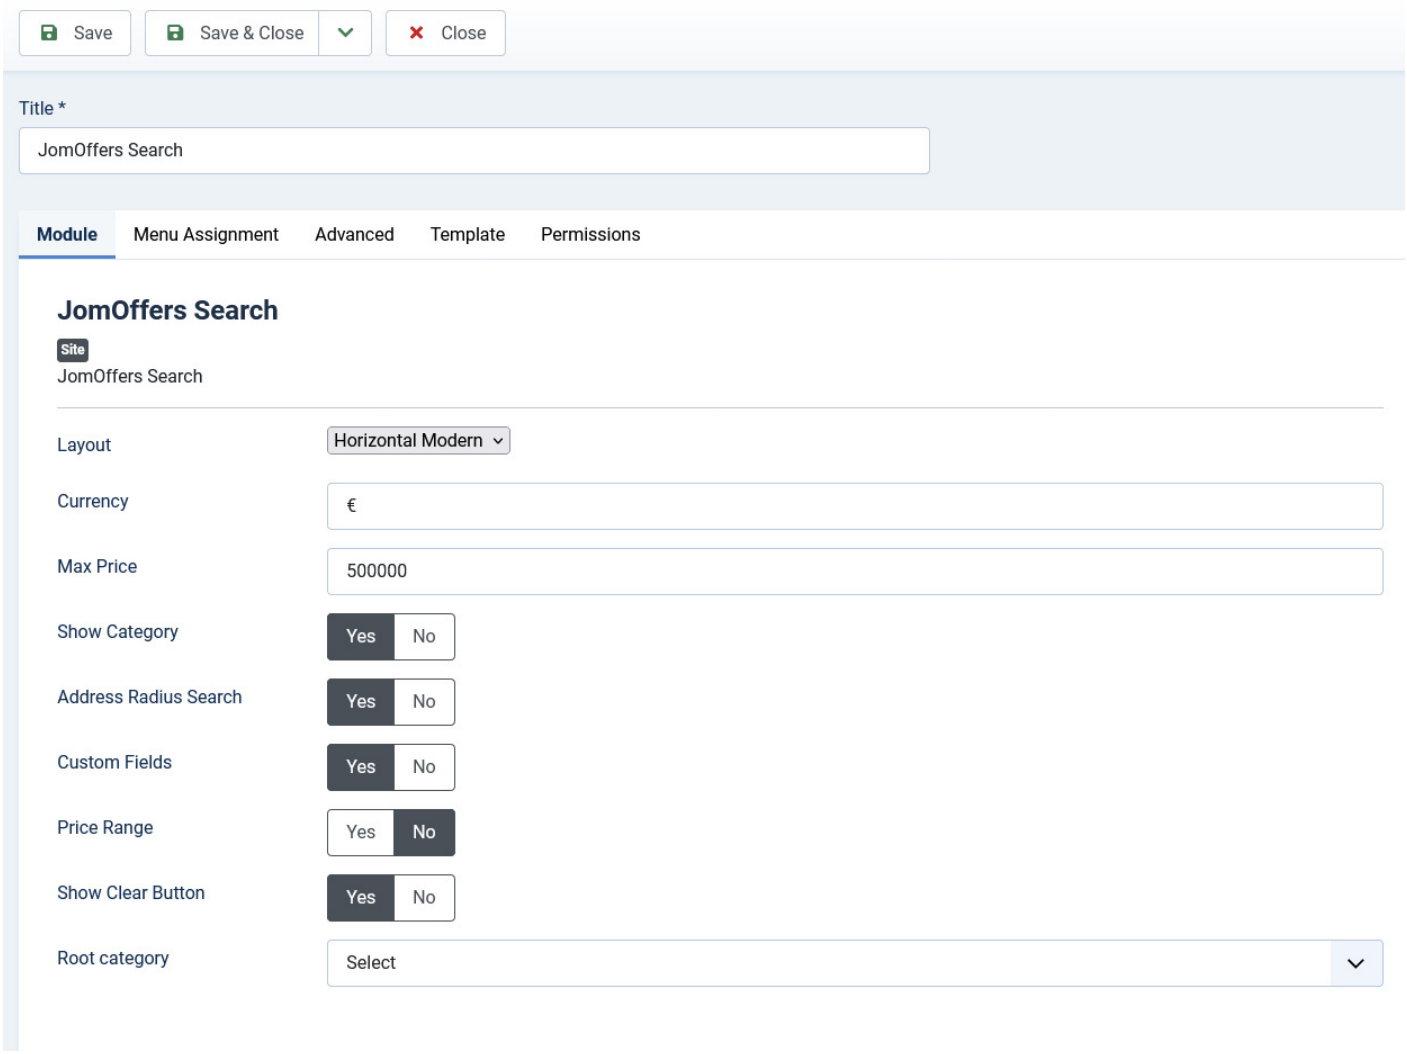

Editing the JomOffers Search module
