

How to display your first Download List

Displaying your downloads is easier than you might imagine. Simply navigate to the right side and click on the "Download Lists" menu link. Each download list has assigned its own unique shortcode, which can then be used to publish downloads on your website.

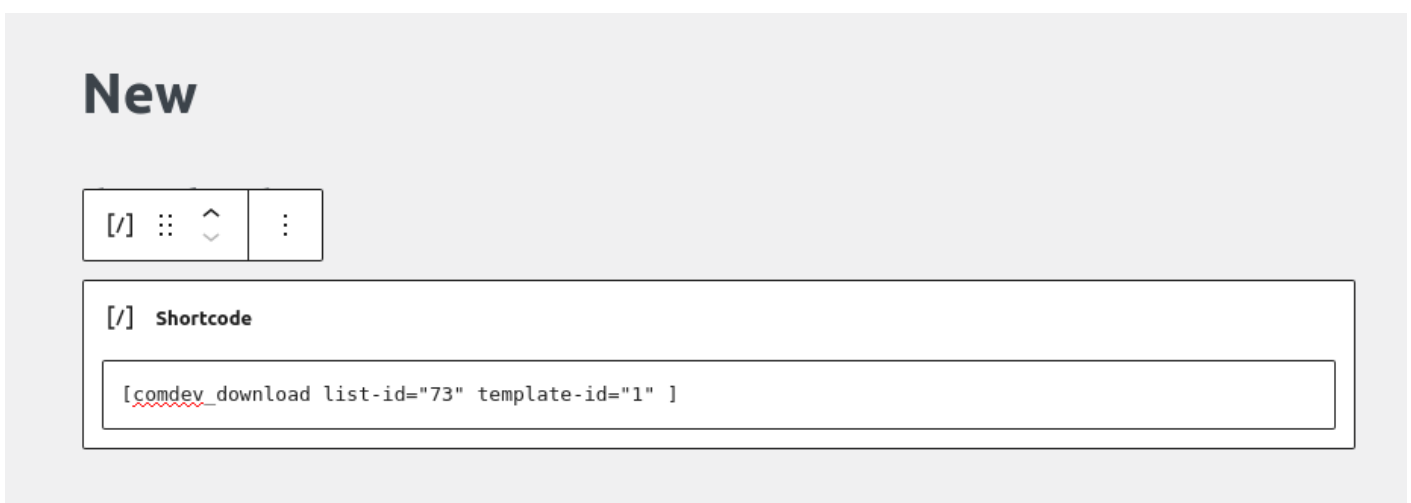

The screenshot shows the WordPress dashboard for the 'Comdev Downloads' plugin. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, Comdev -> Downloads (highlighted), Dashboard, Download Lists, Download Items, Templates, and Settings. The main content area is titled 'Downloads' and includes an 'Add New' button. Below this, there are filters for 'All (2) | Published (2)', 'Bulk actions', 'Apply', 'All dates', 'All Categories', and 'Filter'. A search box labeled 'Search Custom File' is also present. The main content is a table with the following columns: Title, Short code, Categories, Tags, and Date. Two rows are visible: 'New Package' with shortcode '[comdev_download list-id="78" te' and 'Package 1' with shortcode '[comdev_download list-id="73" te'. Both shortcodes are highlighted with red boxes. The table also shows 'Published' dates and times for each item.

Title	Short code	Categories	Tags	Date
<input type="checkbox"/> New Package	[comdev_download list-id="78" te	—	—	Published 2024/05/16 at 13:14
<input type="checkbox"/> Package 1	[comdev_download list-id="73" te	—	—	Published 2024/05/14 at 13:28
<input type="checkbox"/> Title	Short code	Categories	Tags	Date

Placing shortcode under Wordpress Page/Post

Grab the generated shortcode by simply copy it. Locate the shortcode block or directly insert the code into the desired post or page to display the link.

The screenshot shows the 'New' post editor in WordPress. At the top, there is a 'New' heading. Below it, there is a toolbar with icons for undo, redo, and other editing functions. The main content area is a text editor. A shortcode block is visible, containing the text '[comdev_download list-id="73" template-id="1"]'. The shortcode is highlighted with a red box.

That's all set! You're now able to offer downloadable content to your website users.
